Excerpt: .as we advance need to develop this theory in certain directions, but its main features have now been sufficiently indicated, and we can turn to the experimental results. (5.) General Description of the Experiments. The first series of experiments were made in the summer of 1896 by Dr. Alice Lee, Mr. G. U. Yule, and myself. They were very simple in character. Sheets of white paper ruled with faint blue lines were taken, such as are sold for scribbling, and on each blue line two segments of a line were obtained by pricking with a needle point. This was done in triplicate by running the needle point through three adjusted sheets. These segments formed a random distribution of lengths placed on a series of horizontal lines. Each observer now took 500 such lines--the series being the same for each--struck a pencil stroke with a...
