## **COOPERATIVE DESIGN, VISUALIZATION, AND ENGINEERING: SECOND INTERNATIONAL CONFERENCE, CDVE 2005, PALMA DE MALLORCA, SPAIN, SEPTEMBER 18-21, 2005, PROCEEDINGS**

Springer. Paperback. Book Condition: New. Paperback. 264 pages. Dimensions: 9.1in. x 6.1in. x 0.7in. After one year, the major actors in the field of cooperative design, visualization and engineering gathered together again by the side of the beautiful Mediterranean Sea to exchange the research and development experience in the field. CDVE2005 served as a forum to promote the research in the field and it attracted great attention from the CDVE community. This year, we received contributions from over 100 authors, 5 continents and more than 20 countries. As we can see, great progress in research and development has been achieved since the last conference. We received papers on cooperative design, cooperative visualization, cooperative engineering and other cooperative applications. As an important trend, the researchers have started to attack the problems in CDVE from a more generic base. We are happy to see contributions such as constraint maintenance, decision support, and security enforcement for CDVE. Case studies and application-specific developments are among the cooperative visualization papers. Along the line of cooperative engineering, knowledge management, - congruability, and concurrency control are major issues being addressed. Cooperative working in design, visualization, engineering and other areas has different degrees of cooperation. I classify them as strong cooperation, intermediate cooperation, and light cooperation. Strong cooperation involves real-time multiple-user multiple-location modification to the same workspace. Light cooperation exists in the applications where the basic working relationship is only information or workspace sharing among the cooperative entities, no modification to the workspace is involved. Therefore, any application that is shared by more than one single user can be considered as a light-degree cooperative application. Any application between these two extremes can be considered as intermediately cooperative. Our conference addressed the common and specific issues of all of them. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
