Brand New Book ***** Print on Demand *****.Shipping Container Homes Dream Or Reality? Amazing Ideas On How To Build Get Organized Using shipping containers to build homes - sometimes known as Cargotecture - is rapidly growing in popularity all over the world. Containers are used to create homes, offices, storage spaces and emergency accommodation. Containers are relatively cheap, eco-friendly (since they do not require new materials to construct and are saving space in landfill) and allow the builder to create beautiful, imaginative and individual homes. They are easy to install and transport, quick to convert and sturdy enough to stand up to extremes of weather. In this book we will go through some of the important points to consider, such as: Location and planning permission Buying a container from a dealer Modifications to the container Living in a small, non-traditional space If you have ever wondered if container living might be for you, this book will take you through the pitfalls and opportunities of this exciting trend. It also provides information about how to find and contact shipping container dealers in your area. Download your E book Shipping Container Homes. Dream Or Reality?
