An analysis of relevant actors and stakeholders is necessary to facilitate understanding of the international involvement while the Conflict Tree tool is used to visualize roots and effects of the difficult situation. Also the relevance of Track I and II approaches during the peacebuilding process and its effects on the conflict dynamics are discussed. Failures made by organizations during and after the Tsunami can be seen as the last straw to a non-reversible critical stance towards international engagement in Sri Lanka. Some of the main flaws will be discussed in detail, as well as organizational tactics to cope with the difficult situation caused by the flawed Tsunami aid response. As a conclusion, there will be a short needs analysis for changes in organizational practices. 28 pp. Englisch.
